

TAYYAB ASLAM

Full-Stack Developer

Bibi Jan Road, Faisalabad, Pakistan | thisistayyab@outlook.com | 03028742525 | github.com/thisistayyab | linkedin.com/in/thisistayyab | thisistayyab.dev

SUMMARY

Full-Stack Developer with 3+ years of experience designing and shipping scalable web and mobile applications using React Native, Next.js, Node.js, TypeScript, and PostgreSQL. Delivered 4+ client and production applications end-to-end, from architecture through deployment, and currently build enterprise software at Order AI LLC. Strong foundation in data structures and algorithms, backed by 1,150+ LeetCode problems solved.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Radix UI, Responsive Design, Motion.js, Material UI, Zustand, Redux

Mobile Development: React Native, Expo, Firebase, AsyncStorage, Push Notifications

Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets, Redis, ORM, Prisma, API Integration

Databases: PostgreSQL, MongoDB, Supabase, Mongoose, Relational Databases

Tools & Platforms: Git, Github, Vercel, Render, Postman, Docker

Programming Languages: JavaScript, TypeScript, Python, C++

WORK EXPERIENCE

Full Stack Developer, Order AI LLC

Dec 2025 - Present

- Build and maintain enterprise-grade features within a React and TypeScript codebase as part of a 6–15 person engineering team
- Build reusable frontend components adopted across multiple product areas, reducing duplicate work on new features
- Integrate backend APIs to support core product functionality, working closely with backend and design counterparts
- Improve application maintainability through modular architecture and consistent coding standards across a distributed team

Full Stack Developer, Freelance

Nov 2023 - Present

- Delivered 5+ full-stack applications for clients end-to-end, from architecture through deployment, using React, Node.js, and PostgreSQL
- Designed and implemented authentication, database schemas, and third-party integrations from scratch for each client engagement
- Identified and resolved performance bottlenecks across multiple projects, improving load times and application reliability
- Managed full project lifecycle independently — requirements, development, testing, and deployment — as sole developer on each engagement

EDUCATION

BS in Computer Science

Sep 2023 - Present

Riphah International University, Faisalabad

- Studying core subjects including programming, data structures, databases, and software engineering.
- Building practical experience through personal and client projects in full-stack web development.

Government Graduate College

- Studied Computer Science, and Mathematics.
- Built a strong foundation in analytical thinking and problem solving.

PROJECTS

Taylance CRM

React, Express.js, Material UI, REST APIs

- Built a CRM platform for managing clients, leads, and projects.
- Developed responsive dashboards and reusable UI components using React and Material UI.
- Implemented REST APIs and backend services for data management.
- Designed a scalable architecture to support future product growth.

7TalentHub

React, Node.js, Supabase

- Built a CRM system for employee relations and talent management.
- Developed features for tracking employee performance and analytics.
- Created reusable frontend components and backend APIs.
- Implemented database operations and business workflows using Supabase.

Menu-Order AI

React, TypeScript, Node.js, PostgreSQL, REST APIs

- Contributed to the development of an AI-powered health-tech platform that helps users identify high-protein, GLP-1 friendly, and low-carb meals from restaurant and delivery menus.
- Built reusable and maintainable frontend components using React and TypeScript.
- Integrated backend APIs and external services to enable seamless data exchange and application functionality.
- Developed responsive interfaces and optimized performance to improve user experience.
- Collaborated with distributed teams to deliver production-ready features for international users.
